Hydro-Québec's Gold Meters \$1 billion wasted, 1000 jobs lost, and nothing gained!

Hydro-Québec is about to replace all the electricity meters in Quebec. Can we really afford that?

Unprofitable

\$1 billion down the drain for an operation of questionable profitability.

Unemployment

1000 jobs lost! Every region in Quebec will be affected.

Wasteful

3.75 million functional meters scrapped,
at a loss of \$ tens of millions!

Nothing to gain

This will not reduce your electricity bill by one cent,
but could increase it.

**NO, I do not want
Hydro-Québec to spend
\$1 billion and needlessly
sacrifice 1000 jobs to replace
the existing electricity meters!**
